32ND ANNUAL BATTLE OF THE SEXES TOURNAMENT RULES

The Battle of the Sexes will be using the TNBA Tournament Average

1. Bowlers will be required to show an ID when entering Senior brackets.
2. Brackets will close at the end of shadow practice.
3. New gender classification rule (Following USBC rule)
4. We will be using a TNBA Tournament average. Tournament Averages will be posted on the TNBA website.

Averages:

- A. Bowlers will use a TNBA Tournament average of 15 games or more. Tournament averages are based on games bowled in TNBA National and Regional handicap tournaments as of May of 2025. If your current book average exceeds your calculated Tournament average, you must use the highest of the two averages.
 - B. If no Tournament average, bowlers will use highest 2024-2025 USBC average of 21 games or more at the time of bowling. Bowlers with none of the above must bowl scratch (220 average).
 - C. If the 2025-2026 average for at least 21 games at the time of bowling exceeds the Tournament average or the 2024-2025 average by 10 pins or more, the 2025-2026 average must be used (Rule 319a, item 2).
 - D. SPORT AND CHALLENGE AVERAGES will be allowed. All averages established on a Sport or Challenge condition must be adjusted utilizing the USBC Sport/Challenge Adjustment scale. The adjusted average must be used if it is the highest for the season.
 - E. A bowler must report any average adjustment (re-rate) from another tournament, even if the bowler did not accept the adjusted average.
 - F. The Tournament Director reserves the right to go back three years if it is believed that the participant is presenting an average lower than his or her playing ability.
 - G. It shall be the responsibility of each bowler to verify the accuracy of his or her average, whether originally submitted by the bowler, his or her captain or others. Failure to use the proper average shall disqualify your scores if submitted average is lower than actual average. Prize winnings shall be based on the submitted average if it is higher than the actual average.
